A service club/organization shall be defined as: voluntary non-profit organization where members meet regularly to perform charitable works either by direct hands-on efforts or by raising money for other organizations. A service club is defined first by its service mission. Secondary membership benefits, such as social occasions, networking, and personal growth opportunities encourage involvement. A service organization is not necessarily exclusive of ideological motives, although organizations with such defined motives are more likely to identify themselves through their association. Much like the historical religious organizations formed the basis for many of societal institutions, such as hospitals, service organizations perform many essential services for their community and other worthy causes. In the United States, these organizations are commonly tax exempt, 501(c)(3) non-profit organizations.

The Council shall determine the eligibility for each applicant.

A 2/3 affirmative vote will be required by the clubs/organization present and voting for the approval of an applicant's membership.
